SPSL

The Socialist Party of Sri Lanka has launched a new website which will include articles from their paper ASANI with news and analysis of the struggles in Sri Lanka

Rajitha from the Socialist Party of Sri Lanka said "the new website will help the SPSL to reach more people across the island. It is important that the socialist perspective and analysis be read widely, especially now that the government is attacking so many democratic rights."

The website can be found at <http://socialistpartylanka.blogspot.com/> [1]
